

The Buckwalter Place Greenway Trail

The Buckwalter Place Greenway Trail is a pedestrian nature trail which is approximately 1.35 miles long and surrounds the Buckwalter Place mixed-use development.

The first two sections of the trail are designed to be ADA accessible.

The trail is located in a wetlands buffer and some of the features that can be seen along the trail include:

- Mesic and bottomland hardwood forests
- Wetland streams
- Man-made lagoons
- A planted pine forest that was formerly part of a paper company plantation

TRAIL DETAILS

- Approximately 1.35 miles of trail
- 220 LF of boardwalks
- 4' wide mulched trail for pedestrian use
- Portions of the trail are ADA accessible (see areas highlighted in orange)

The Town of Bluffton and the developers of Buckwalter Place received funding assistance towards construction of the trail from the Recreational Trails Program in cooperation with the SC Department of Parks, Recreation & Tourism and the Federal Highway Administration.
